

Starting Jan. 30, 2012,

the Iowa Department of Transportation (DOT) will implement new federal regulations that require all CDL holders and applicants to certify the type of driving they do, and require interstate CDL holders that carry a Medical Examiner's Certificate to give the Iowa DOT a copy of their certificate.

These new regulations DO NOT change who has to obtain a CDL or who has to obtain a Medical Examiner's Certificate. They only require two things:

- 1. All CDL holders and CDL applicants** must self-certify the type of driving they are engaged in. Use the inside of this brochure to determine your driving type.
- 2. Drivers that certify to nonexcepted interstate driving** must give the Iowa DOT a copy of their Medical Examiner's Certificate, and must keep that certificate current.

WHEN DO I NEED TO COMPLY?

All CDL holders must complete the self-certification and provide the Medical Examiner's Certificate, if required, by **Jan. 30, 2014**. If you renew or change your CDL before Jan. 30, 2014, you will be required to comply at the time of the renewal or change.

What if I do not renew or change my CDL before Jan. 30, 2014?

You will need to complete the self-certification and submit the Medical Examiner's Certificate on or before that date, even though your CDL does not expire until later.

What happens if I do not comply?

The federal regulations require the Iowa DOT to downgrade your CDL to a noncommercial license if you do not complete the self-certification of type of driving and submit the Medical Examiner's Certificate, if required, before Jan. 30, 2014.

Where and how do I do this?

See the inside of this brochure for instructions on how to self-certify and how to submit a Medical Examiner's Certificate.
